WiZ
#ConnectedLight

Say hello to limitless possibilities

16 Million Colours

Enjoy the dimmable white and coloured light for the desired ambience depending on your mood.

Timers and schedules

Set automated home lighting schedules to suit your lifestyle.

Voice Control

Enjoy full control of your lights with voice activated devices.

Smart Dimming

Transition easily from bright day light to warm cozy light with smart dimming.

Circadian rhythm

Automate lights with circadian rhythm to suit various times and moods of the day.

No hub required

No additional equipment required, just follow simple steps and pair your device with the app.

WiZ App

Control your lights from anywhere with free, easy-to-use WiZ app.

Pre-set modes

Comes with variety of preset light modes for everyday situations ranging from fun to functional relax mode.

Tunable white/yellow

Enjoy the energising tunable white light or warm yellow light for a perfect ambience.

Power outage recovery

Lights that were turned off in the absence of power, won't turn on when power supply is resumed.

Privacy guaranteed

The WiZ app fully guarantees privacy as no personal information is used, retrieved or stored. No risk of hacking too.

Multi-user multi-location

With multi-user/multi-location feature, control your lights from remote locations.

A spectacle is just a tap away

Just download your WiZ app V2 and connect your Philips Smart Wi-Fi LED lights to turn them on or off, set schedules, create perfect ambience and more with its user-friendly interface.

Smart lighting made easy

1 Download the free WiZ app V2
Search for “WiZ lighting”

2 Install a light
Place the fixture and plug in

3 Pair light
Follow the on-screen steps in the app to complete the setup

4 Enjoy your light
Dimmable white and colored light to create your desired ambience at home

Product requires a Wi-Fi connection to operate wirelessly. Compatible only with WiZ apps and products.

Control your lights wherever you are using the WiZ app or your favourite compatible voice control device.

SpaceSense™

Philips Smart Wi-Fi LED Lights with Spacesense

SpaceSense is a never-seen-innovation in the consumer lighting industry by WiZ. An omni-directional motion detection technology for lighting system without installation of any sensors, offering a new way to automate your lights using Wi-Fi sensing technology for a more comfortable, careful and joyful home.

SpaceSense™

innovation ✨ you

WiZ
CONNECTED

Available on a tap

A dining table is set for a meal, featuring a wooden surface, a glass of water, and several bowls of food. A large, modern, white pendant light hangs above the table, casting a warm glow. The background shows a living area with a sofa and a lamp, all illuminated with soft, ambient lighting. The overall atmosphere is cozy and modern.
